DCUSA E-Bulletin

Issue 38

01 May 2020

Monthly Summary

WORKING GROUP UPDATES

DCP 325 'Reviewing the requirements of Sections 35A, 35B, Schedule 15 and Schedule 20'

This CP seeks to combine, review and if appropriate, amend the requirements of Section 35A and 35B, Schedule 15 and 20 to improve transparency and efficiency in the data published by DNOs.

- The Working Group are continuing to finalise their solution and legal text. The updated models have been received but with most members tied up with the TCR related CPs, work is unlikely to progress until those CPs have been finalised.

DCP 328 'Use of system charging for private networks with competition in supply'

This CP looks to ensure that use of system charging remains cost reflective when competition in supply on a private network is in place.

- This CP has been placed on hold pending the outcome of the TCR DCPs 358-361, which are looking at residual charging (including private networks). A decision on the status of DCP 328 will be made following the outcome of these CPs.

DCP 344 'Solutions for a new approach to billing and remittance'

This CP seeks to introduce a new approach for billing that will create efficiencies for DCUSA Parties and better facilitate competition.

- The Proposer of the Working Group is evaluating the necessity for the Change to be progressed further.

DCP 349 'Effectiveness of the current provision of unsecured cover under Schedule 1'

This CP seeks to mitigate the financial risk associated with supply business failures by strengthening the criteria around the provision of unsecured cover and protect customers from increased socialised failure costs.

- After review of the RFI, there was agreement that the reduction of the maximum number of qualifying months of good payment history together with a time limit after which a form of secured cover must be used was appropriate. The Working Group were also concerned that based on the current COVID-19 situation and the nature of this change that it may be inappropriate to progress this change during this time

DCP 350 'Creation of Embedded Capacity Registers'

This CP looks to require the DNOs to create a national, public register of all sites that use their networks and influence the operation of the GB power market. The Register would contain details of

each connected site and would be kept up to date by the DNOs.

- The DCP 350 Change Report was submitted to the April DCUSA Panel and was approved to proceed to the DCUSA Party voting phase. The deadline for Party votes is 01 May 2020.

DCPs 352, 353, 354 and 355 'CDCM, EDCM (LRIC), EDCM (FCP) and PCDM Modelling Assumptions Housekeeping'

These CPs are intending to clarify and better align the legal text to the CDCM, EDCM (LRIC), EDCM (FCP) and PCDM models.

- The DCUSA Panel instructed that a Joint Working Group be established to assess the solution for all four of these CPs. The Joint Working Group met on 07 January 2020 to review the CPs and to discuss the draft legal text and next steps for the changes. There are still a couple of outstanding issues on the assumptions log that require attention and so the Working Group will be reviewing these and producing solutions before Change Reports will be drafted. It is noted that most members are tied up with the TCR related CPs and so work is unlikely to progress until those CPs have been finalised.

DCP 358 'Ofgem Targeted Charging Review (TCR) Implementation – Determination of Banding Boundaries'

The intent of this Change Proposal (CP) is to implement certain areas of Ofgem's TCR Decision; specifically relating to the determination of charging bands for nondomestic distribution connected customers. This CP seeks to address paragraphs 20, 21, 30, 31 and 32 whilst having regard for paragraphs 34 and 36-39, of the TCR Direction.

- DCP 358 is being progressed via a joint Working Group alongside DCP 360. The Working Group issued a consultation on 25 March 2020 for a period of 15 Working Days. Following a review of the responses to the consultation during two meetings held on 22 and 23 April 2020, the Working Group

have updated the legal text which is currently with DCUSA Ltd.'s lawyers for review and the Secretariat is preparing a Change Report which will be reviewed at a meeting scheduled on 11 May 2020. It is expected that the Change Report will be issued to the Panel in May for approval for it to be issued to Parties for voting.

DCP 359 'Ofgem Targeted Charging Review (TCR) Implementation – customers: who should pay?

The intent of this Change Proposal (CP) is to implement certain areas of Ofgem's TCR Decision; specifically relating to the identification of which 'customers' are eligible for a residual fixed charge.

This CP seeks to address paragraphs 12-16, and paragraph 30, whilst having regard for paragraphs 34 and 36-39, of the TCR Direction.

- DCP 359 is being progressed via a cross-code Working Group with its sister CUSC Modification 'CMP 334', which are both concerned with the definitions for a 'Single Site', 'Final Demand' and for 'Final Demand Site'. The Working Group issued a consultation on 20 March 2020 for a period of 15 Working Days. Following a review of the responses to the consultation during two meetings held on 20 and 21 April 2020, the Working Group have updated the legal text which is currently with DCUSA Ltd.'s lawyers for review and the Secretariat is preparing a Change Report which will be reviewed at a meeting scheduled on 07 May 2020. It is expected that the Change Report will be issued to the Panel in May for approval for it to be issued to Parties for voting.

DCP 360 'Ofgem Targeted Charging Review (TCR) Implementation – customers: allocation to bands and interventions

The intent of this Change Proposal (CP) is to implement certain areas of Ofgem's TCR Decision; specifically relating to the allocation and reallocation of 'customers' to residual charging bands. This CP seeks to address paragraphs 21-23, paragraphs 29-30, and paragraph 33, whilst having regard for paragraphs 34 and 36-39, of the TCR Direction.

- DCP 360 is being progressed via a joint Working Group alongside DCP 358. The Working Group issued a consultation on 20 March 2020 for a period of 15 Working Days. Following a review of the responses to the consultation during two meetings held on 22 and 23 April 2020, the Working Group have updated the legal text which is currently with DCUSA Ltd.'s lawyers for review and the Secretariat is preparing a Change Report which will be reviewed at a meeting scheduled on 11 May 2020. It is expected that the Change Report will be issued to the Panel in May for approval for it to be issued to Parties for voting.

DCP 361 'Ofgem Targeted Charging Review (TCR) Implementation – Calculation of Charges

The intent of this Change Proposal (CP) is to implement certain areas of Ofgem's TCR Decision; specifically relating to the calculation of charges.

This CP seeks to address paragraphs 17-19, paragraphs 24-28 and paragraph 30, whilst having regard for paragraphs 34 and 36-39, of the TCR Direction.

- DCP 361 is being refined and developed by a Working Group which held its first meeting on Friday, 14 February 2020 and have had four subsequent meetings. The Working Group have finalised their draft legal text and a modelling request was issued on 03 April. The Secretariat is drafting the consultation document which will be reviewed and finalised by the Working Group alongside the updated models and impact assessment during a meeting to be held in May, following which the consultation will be issued to industry.

DCP 364 'Provision of information on Suppliers out of Hours Metering Service Provisions'

The intent of this Change Proposal (CP) is to require supplier parties to provide and maintain up to date information on Suppliers out of hours metering service provisions

- The Working Group agreed after discussion that the title and intent statement should be updated for clarity

and therefore a revised version of the CP was presented at the April Panel and passed. A second meeting was held on 16 April to review the Consultation document, and this was sent out to Party Voting on 23 April.

DCPs Approved at Panel

DCP 370 'Inclusion of Outcome Files in the Escalation Process'

DCPs Awaiting Approval from Ofgem
