## DCUSA E-Bulletin

### Issue 43

30 September 2020

#### Monthly Summary

#### WORKING GROUP UPDATES

##### **DCP 371 'Solutions for a new approach to billing and remittance'**

*The intent of this CP seeks to provide the governance arrangements regarding Distributors' ability to manage consumer devices (such as EV chargers) connected to Smart Meter infrastructure to prevent network overloads in emergency scenarios as a last resort measure.*

- A second Working Group meeting was held on 24 August 2020, at this meeting members were keen to understand any alternative solutions that were considered as part of the SEC Working Group. A joint working group with the SEC was held on 24 September 2020 and a further joint meeting will be held on 14 October 2020 to continue the solutions discussions.

## **DCPs 352, 353, 354 and 355 'CDCM, EDCM (LRIC), EDCM (FCP) and PCDM Modelling Assumptions Housekeeping'**

*These CPs are intending to clarify and better align the legal text to the CDCM, EDCM (LRIC), EDCM (FCP) and PCDM models.*

- The DCUSA Panel instructed that a Joint Working Group be established to assess the solution for all four of these CPs. There are still a couple of outstanding issues on the assumptions log that require attention and so the Working Group will be reviewing these and producing solutions before Change Reports will be drafted.

## **DCP 349 'Effectiveness of the current provision of unsecured cover under Schedule 1'**

*This CP seeks to mitigate the financial risk associated with supply business failures by strengthening the criteria around the provision of unsecured cover and protect customers from increased socialised failure costs.*

- This Working Group has not met since the Covid-19 pandemic, but there is now a meeting scheduled for 30th September. It is expected that there will be a second consultation released in October.

## **DCP 344 'Solutions for a new approach to billing and remittance'**

*This CP seeks to introduce a new approach for billing that will create efficiencies for DCUSA Parties and better facilitate competition.*

- This Working Group has not met since the Covid-19 pandemic, however a meeting is to be scheduled for October.

## **DCP 328 'Use of system charging for private networks with competition in supply'**

***This CP looks to ensure that use of system charging remains cost reflective when competition in supply on a private network is in place.***

- This CP has been on hold pending the work required to support the TCR related CPs. It is likely that Working Group meetings will recommence in the latter part of 2020.

### **DCP 325 'Reviewing the requirements of Sections 35A, 35B, Schedule 15 and Schedule 20'**

***This CP seeks to combine, review and if appropriate, amend the requirements of Section 35A and 35B, Schedule 15 and 20 to improve transparency and efficiency in the data published by DNOs.***

- The Working Group are continuing to finalise their solution and legal text. The updated models have been received but with most members tied up with the TCR related CPs, work is unlikely to progress until those CPs have been finalised.

### **DCPs Approved at the September DCUSA Panel**

**DCP 373** 'Groups in Schedule 11'

### **DCPs Awaiting Approval from Ofgem**

**DCP 266** 'The calculation and application of IDNO Discounts'
